

**plant names a b** - note names for which i have no derivations or about which i have further questions are being put on a separate page here and will be investigated further at a later date i have included names which are no longer current because the individuals which these names commemorate nevertheless contributed to southern african flora and deserve to be recognized and remembered, **a systematic treatment of fruit types world botanical** - botanists today are uncertain as to which fruit types and terms should be recognized perhaps because there are no rules to follow as in the case of the international code of botanical nomenclature icbn for naming plant species and their higher taxonomic levels genera families orders etc although similar rules were applied by desvaux 1813
